

### DAV1221 valves ( FEATHERING )

Stackable utilizing one one common and exhaust port with one standard bolt length  
Various bankable applications (wet line kits, dump pump controls, Muncipal snowplow vehicles, dump bodies , refuse vehicles etc..)

Offset handles allows for a very clean installation that reduces labor costs.

0-120 PSI proportional control

able to stack the valves into bankable configurations

Various bent handles for installation

Options:

Lit knobs for all driving conditions even at night

Neutral detent

3 position detent ( raise, lower, neutral)

Detent clip

Spacer to accept various straight handle configurations

Magnifying cap and decal clearly shows functions and control instructions

### PNEUMATIC JOYSTICKS ( FEATHERING )

Features a compact assembly of two DAV1221 pneumatic valves allowing single operation of valve function with one lever, capable of articulating 360 degrees.

Applications- front end loaders, roll offs, municipal snowplow trucks

Available with various mounting plates for aftermarket and OEM.

Available with lit knobs, electric handle grips as well as détente option for a float function.

Options heavy duty design

Non rotating design for the electric handle grips and lit knobs

### Dump Pump Actuators

Direct mount air shift cylinders for various hydraulic dump pumps.

Allows proportional control for lowering dump bodies and end dump trailets etc..utilizng air controls.

Less installation time and or low maintenance saving overall costs

### Hydraulic valve actuators

The ASC series actuators are designed to control the closing and opening of the hydraulics valves by installing an pneumatic shift cylinder to the end of the hydraulic spool

efficient cost effective to control cables and or electric systems saving on troubleshooting and service maintenance issues associated with cable controls- freezing grease less etc..

Balanced areas for true proportional control

Simple installation without outside moving parts

Die Zinc cast alloy material to deter corrosion

Non binding

Compact size

Proportional control

Simple installation

Pre assembled for quick and simple installation

No exposed moving parts with Anti bind technology which allows years of service.

Compact size

### Consoles:

Control consoles are a two pc design for ease

Powder coated

Simple installation, cost savings and labor saving benefits

User friendly attractive design

### Swivel Pedestals ( Ergo HD)

Innovation and quality

Once the base is installed to the floor- the middle and top can be rotated to either the driver or passenger side by unlocking the t handles.

Available in three standard heights -5" , 10" and 14"

Removable top and middle for easy access.

Configurable to hold up to 10 plus valves

Ease of installation to save on overall costs

Accepts round tubing through the base and middle to the top.

Ease of ordering with new EZ part numbers

User friendly

Powder coated
